

I have an XM Satellite Radio which I listen to all the time. I paid for this service which I truly enjoy and XM satellite radio provides me with variety and quality that is NOT available from my local channels. I am sick of the local channels which provide a few minutes of music and then what seems like hours of commercials. I ask that you reject the NAB's petition 04-160 and allow XM to provide the kind of programming that we want which we are willing to pay for. It is not up to the National Association of Broadcasters to dictate what I, who have paid for these services, to hear. I want to be able to hear the local weather, traffic and any other local items. There is still an audience who does not want to pay for a satellite radio, who will be more than willing to listen to the local broadcasters.

Thank you for your time. Karen Esak, Hazleton, PA
